2017/4037/T	Mrs Judy Camp	91 Camden Mews NW1 9BU NW1 9BU	27/07/2017 08:09:46	JUST	I strongly object to these trees being felled on the grounds of environmental amenity & privacy. They provide a haven for wildlife, particularly birds, in our urban environment, act to absorb noise and pollution from Camden Road and in general provide an attractive leafy green presence in residents' lives. In terms of privacy they shield Camden Mews properties from being overlooked. To fell all five would remove all privacy & dramatically change our outlooks for the worse. No reason is given in the application for the need to fell these trees. This reason needs to be shared with us neighbours.
