Subject: 100 Avenue Road Objection

Dear Mr Mc Clue,

100 Avenue Road Swiss Cottage REF: 2017/4036/P S96A

I write to strongly object to the changes made in the original application which seem to increase the risk of fire safety. Excess hallways to increase space resulting in an actual reduction of hallway evacuation space and the fact there is only one staircase within the tower (We have seen enough of tragedy recently without laying the foundations of a repeat). Also it appears London Fire Brigade has NOT been consulted about these changes. I find this absolutely unbelievable in view of recent news.

Unfortunately to a bystander it appears that our own Labour Council Majority seem to be taking the a similar root to the Tories of Kensington and Chelsea in looking for the financial benefits and how to get them as quickly and easily as possible. It appears the many changes to the original application are just being pushed through without proper scrutiny. It makes me very worried about the Camden planning system as a whole.

Kind regards,

Edward Brooks
