2017/4021/P	Becca Coles	York Rise Nursery Ltd St Mary Brookfield Hall York Rise London	31/07/2017 18:52:14	OBJ	<p>As the manager of the Nursery School situated in St Mary Brookfield Hall I have real concerns about this development, that I feel warrant this application being refused. Our nursery garden is adjacent to the property and I am concerned on three points.</p> <p>1) I have not been approached or given access regarding a light test for our garden area. Our own observations reveal that our garden will lose total direct sunlight from all directions during the day. This is the only available outdoor play area for the children.</p> <p>2) The ability for the children to access this area safely during the build.</p> <p>3) I am concern how overlooked the our garden will be from the new windows.</p> <p>The timing of this applications and the fact that I have not been contacted by any parties, means that we are closed for the holidays and will not be able to represent the nursery at the planning committee.</p> <p>I would like the opportunity to speak to the planning committee regarding this application as the development and welfare of young children are at stake.</p>
