2017/2874/P	KEYVAN	124 Camden Road LONDON NW1 9EG	30/07/2017 16:53:13	COMMNT	Dear Kate, Regarding application 128 Camden Road, there are 11 shops on one side of the road and 11 shops on the other side of the road. From these 22 shops, 7 are food shops, I do not think there is room for another one in the area as most of the food shop traders are already struggling. We need to keep the existing A1 shops ( Barbers ) so it brings a different mix of people into the area. Also, this part of Camden is supposed to be an environmentally protected area, so the introduction of ventilation ducts sticking out of every other building between St Pancras and Royal college street would be a major eye sore to the area and would create noise pollution. You need to consider all these factors before granting another change of use to A3.
