2017/3702/P	Francis Bacon	The Basement Flat 15A BIRCHINGTON ROAD , NW64LL NW64LL	01/08/2017 14:53:40	OBJ	I would like to object to this planned extension to the Benny Dee loading bay /Georgian Theater listed / and currently now a restaurant. The extension that had to be taken down a couple of weeks ago with NO planning permissions, encroached over the pavement when walking passed and as half the pavement is slopping from its loading bay days , pedestrians are forced into the road . After evening party trade starts , we then have to suffer flash gits driving like wallies up and down Birchington Road till one or 2 in morning , in yesterdays gas guzzling FLASH git motors !. When walking past we have to dodge flicked ciggies rubbish and lots of noisy behavior out on the terrace....all this first floor outdoor partying noises echo up and down the street. There also appears to be locked steel doors to the flats above the kitchens with NO separate fire exits and no alarms in this and next door 42 which shares certain bits of the property I believe. Birchington Road looks like a WAR ZONE from 42 to the High Road and is constantly flytipped and rubbish left all over this area and is a disgusting mess of illegal activities from unlicensed containers , unlicensed drinking verandas ,unlicensed extensions and unlicensed houses in multiple occupation above the restaurant and uncovered rotting vegetables in CAMDEN COUNCIL bins etc.
