Subject: Ornan Court - Objection

To Whom It May Concern

I am the owner of Flat 6, Rosslyn Court, NW3 and I am writing to object to the recent application to develop Ornan Court.

I am objecting on the following grounds:

- a) The previous application was only rejected 13 months ago. The developer should wait three years before submitting another one.
- b) Tree roots will be impacted with the extended lightwell.
- c) more of the front garden will be removed.
- d) the instalation of the lift and the excavation in general is not in keeping with the improtant historic building
- e) There seems to no documents that relate to the build
- f) we don't believe3 that the new light measurments are complete.
- g) It claims the building is a c3 dwelling house when it is in fact sui generis

I have been informed that we have until at least the 21st March to submit a full objection and I will be writing further.

Regards

Christopher Collins
