2016/7088/P	Jay Gage - Inspiral Mediums	44 Whitmore Avenue Grays Essex	03/08/2017 00:51:56	OBJEMAIL	I wish to object to the proposal to demolish the Spiritualist Temple on Rochester Square in favour of redevelopment. The building has been there since its stone was laid by famed Spiritualist Sir Arthur Conan Doyle in 1926, and has over the years brought comfort and upliftment to the bereaved and grieving. People have left money to the church in their wills, mediums have worked for free, and so much love has been infused into the building, that it seems obscene and morally bankrupt of the Council to consider its demolition. I also feel it necessary to point out that the Spiritualist Movement, along with the Church of England is one of the longest recognised faith in the U.K. Perhaps more consideration should also be given to the status of the Temple. Would the Council do readily demolish other places of worship ? I welcome your response.

2016/7088/P	Elizabeth Davis	19A Mostyn Avenue	03/08/2017 08:31:42	OBJ	I oppose these proposals on moral grounds inasmuch as the loss of this church affects the whole of the Spiritualist religion,, not just the members and visitors to this particular venue. Each church faces a challenge to even exist at all and there are communities like my own that do not have one at all. There are so many opportunities elsewhere for property developments and does not need to remove a church to do so.
