2017/3743/P	Ben Fletcher	19a Belsize Crs London NW3 5QY	02/08/2017 14:36:43	OBJ	<p>I object to the planning application 2017/3743/P proposal for 7 Daleham Mews.</p> <p>Looking at drawings the proposed, the roof ridge will be much higher than existing roof and even more than the drawings imply, it would not be possible to fit that number of windows into the existing structure without elevation. The mansard windows will be 10m away from my bedroom window and would be an unacceptable intrusion and the enjoyable use of my living space.</p> <p>The bulk of the mansard would be imposing to the rear flats of Belsize Crescent nos 13 to 19 including the council owned no 15.</p> <p>Additionally the family garden and amenity living areas will suffer from a significant loss of sunlight in an area already overbuilt through previous poor planning controls.</p>
