2017/3782/P	South Kentish Town CAAC	--	03/08/2017 22:15:49	OBJ	While approval has been given previously to raising the height of Reids Place houses since the conservation area was created, it has changed the character negatively. The original valley roof is clearly visible. Those of contemporaneous 119-131 St Pancras Way (built as Sussex Terrace) have not been allowed to be changed. There have also been objections to the creation of 3-storey buildings in the mews of Rochester Place. On conservation grounds, this application should be refused.
