2017/3381/L	Mrs Stedman	11 Centre Point House 15a St Giles High Street London WC2H 8LW	05/08/2017 11:05:57	OBJ	I object to this application because it will create unnecessary problems for the residents of Centre Point House. We will suffer fumes from the cooking at the restaurants and will not be able to open our bedroom and balcony windows. There will be pollution from the air conditioning units of the restaurants as well as dust, noise and vibrations, none of which we had before this development. I fear for the health and safety of my young grandchildren.
