2017/3532/P	Isabela Hughes	22 Harley Road London NW3 3BN	04/08/2017 17:52:11	SUPPEMAI L	<p>I am a next door neighbour at 22 Harley Road, garden flat. I am an interested party.</p> <p>I write to SUPPORT the application.</p> <p>1 I like the design of the application, it is consistent with existing buildings and will benefit the Conservation area</p> <p>2 the proposed extension will balance out the house and the glazed elevation and the proposed planting on the roof top will make it look more attractive from the street, improving the street scene and the look of the road</p> <p>3 we should support the application which will enable them to provide elderly parental care at home, this should be encouraged</p>
2017/3532/P	Tania Black	3 Wadham Gardens London NW3 3DN	05/08/2017 16:15:16	SUPPEMAI L	<p>I am a near neighbour so I am an interested party.</p> <p>I strongly support the application because I think that the proposed extension will be beneficial to Harley road for the following reasons</p> <p>1 the location of the extension is set back from the street and the glazed elevation will look transparent. The planting on the roof top will provide an attractive outlook to the street.</p> <p>2 I like the design and proposed materials of the extension as they are sympathetic to the original house and the contemporary extension at number 26.</p> <p>3 the infills between 14, 16 and 18 built in the 1980s are unsympathetic and are not of high quality design and materials. The proposed extension at 24 Harley Road is of high quality and contemporary design respects the host building and the context of the street front.</p> <p>4 I support the idea that the property is being enlarged to accommodate an extended family to provide parental care at home, this should be encouraged within Camden.</p>
