2017/3923/P	Si Sapsford	34 St Crispins Close London NW32QF	08/08/2017 14:38:51	OBJ	<p>33 St Crispins Close (our next door neighbour) is a terraced property in the middle of a run of 7 identical homes. We strongly feel the addition of a brick porch will significantly alter the uniformity, look and feel (possibly value) of our row of terraces. They have not changed in appearance since they were built in 1984.</p> <p>The porch infill will be built directly on to my wall and will certainly affect the look of my property in particular and I will certainly withhold consent to do that.</p> <p>This wall currently houses our kitchen extractor vent and would be covered over by the proposed porch roof, making it hidden, therefore needing it to be vented up through this roof (not drawn on there proposed plans). Access to it would be prohibitively difficult and costly, or possibly impossible if the property changed ownership.</p> <p>On these grounds we object to this part of the proposed plans.</p>
