

Application No:	Consultees Name:	Consultees Addr:	Received:	Comment:	Response:
2017/3985/P	John Myers	116 Drummond Street London NW1 2HN	12/08/2017 10:35:52	OBJNOT	I oppose the application. Permitting the cooking of food for commercial purposes in an existing residential building will have a substantial adverse effect on existing residents and other neighbours. The area already has plenty of restaurants, which face a struggle to attract enough customers (which will get worse as a result of HS2). To permit the application would damage other local businesses and detract from the healthy mix of uses that the community has always understood to be part of the appeal and charm of Drummond Street. To allow outdoor seating would also substantially increase the risk of noise, particularly during late summer evenings when children are trying to sleep but windows must be kept open because of the heat.
2017/3985/P	Verity Fletcher	74 Hampstead Road	14/08/2017 11:19:12	OBJ	I object to the change of use from a shop to a restaurant. I am a George Mews resident (adjacent to 134 Drummond Street). My flat directly looks on the back entrance of the shop. George Mews residents already have to deal with too many discarded takeaway wrappers, which are consistently strewn around our courtyard. Having another restaurant will add to the mess. Additionally, I am concerned there will be an increase in noise levels from increased numbers of people in the evenings and nights.
