2017/3860/P	Matthew Dodd	20 Fairfax Place NW6 4EH	17/08/2017 23:06:15	OBJ	I am objecting to this application. The restaurant is still open now at 11pm when it is supposed to close at 9pm. The operator/owner was fully aware of the many planning conditions before the restaurant opened. They must therefore comply with all the conditions imposed. Fairfax Place is a very quiet residential area. Residents should not be disturbed by fans, air conditioning and the flue. The noise requirements imposed are there to protect the residents. Please ensure that they comply.
2017/3860/P	Wael Arab	29 Fairfax Road NW6 4EJ	17/08/2017 21:54:05	OBJ	The noise condition relates to all machinery running at full volume. The flue alone breaches this condition so it should be refused. You cannot rely on the operator to turn down the volume when they stay open beyond the conditioned 9pm closing time. Yesterday customers were arriving at 9pm !!! This is a very quiet neighbourhood. Residents should not be disturbed especially in the evening.
