It looks like the plans proposed will bring the building forward than before and therefore balconies will look over and i object to this. I thought planning permission was given for a similar footprint of the old Pugh House this looks a larger foot print.   |

The changes to the roof also increases the usable area of the top flats. The pitch of the roof is now much steeper than others in the street. Are these changes within the permitted development parameters of the development ?<br>On a related matter, Camden requested than 4 mature trees required to be retained but these have recently been felled to facilitate site works. Has their removal been approved ? |
