2017/4391/P	Claire Lazenby	28 Mornington Terrace London NW1 7RS	20/08/2017 10:16:55	COMNOT	I live at No 28 Mornington Terrace. I work from home. A 2 storey extension means construction noise. All day, every day, until the construction is over. What provisions will the Council put in place to ensure that me and other residents of this street will have some respite from the noise? especially from drilling? Drilling is such a peircing sound that it's very hard to cope with it. And it's also the type of sound which carries quite a distance, so even neighbours like me, ten houses away, still hear and feel.
