Dear Ms. Jenna Litherland,

2017/4586/P 17 Charterhouse Street, London, EC1N 6RA

Extensions and refurbishment of the existing part seven, part five storey (plus basement) building including erection of a single storey roof extension to Saffron Hill block, part two-storey and part five-storey extensions within central courtyard, part removal of the existing façade and part replacement with new glazed, metal and stonework façade. Access alterations including redesign of existing pedestrian entrance and relocation of vehicular entrance on Charterhouse Street. Remodelling and replacement of existing plant and equipment. Provision of cycle parking spaces, and associated landscaping works.

Thank you for your letter dated 15 August 2017 and the accompanying planning application documents relating to the above site, requesting the views of Crossrail Limited on the above application.

Crossrail is a proposed new railway that will link Heathrow and Maidenhead in the west to Shenfield and Abbey Wood in the east using existing Network Rail tracks and new tunnels under Central London.

The Crossrail Bill which was introduced into Parliament by the Secretary of State for Transport in February 2005 was enacted as the Crossrail Act on the 22nd July 2008. The first stage of Crossrail preparatory construction works began in early 2009. Main construction works have started with works to the central tunnel section to finish in 2018, to be followed by a phased opening of services.

Crossrail Limited administers a Direction issued by the Department for Transport on 24th January 2008 for the safeguarding of the proposed alignment of Crossrail.

The site of this planning application is identified within the limits of land subject to consultation under the Safeguarding Direction.

.....

The implications of the Crossrail proposals for the application have been considered and the detailed design of the proposed development needs to take account of the construction of Crossrail.

Therefore if, as the Local Planning Authority, you are minded to grant planning permission for the development, Crossrail Limited are of the view that **the following condition[s] should be applied:**

Crossrail condition for foundation design, noise, vibration and settlement

- C1 None of the development hereby permitted shall be commenced until detailed design and construction method statements for all of the ground floor structures, foundations and basements and for any other structures below ground level, including piling (temporary and permanent), have been submitted to and approved in writing by the Local Planning Authority which:-
- (i) Accommodate the proposed location of the Crossrail structures including tunnels, shafts and temporary works,
 - (iii) Mitigate the effects of noise and vibration arising from the operation of the Crossrail railway within the tunnels and other structures.

(iv) Mitigate the effects on Crossrail, of ground movement arising from development

The development shall be carried out in all respects in accordance with the approved design and method statements. All structures and works comprised within the development hereby permitted which are required by paragraphs C1(i), (iii) and (iv) of this condition shall be completed, in their entirety, before any part of the building[s] hereby permitted is/are occupied.

Crossrail condition – concurrent working

C2 None of the development hereby permitted shall be commenced until a method statement has been submitted to, and approved in writing, by the Local Planning Authority to include arrangements to secure that, during any period when concurrent construction is taking place of both the permitted development and of the Crossrail structures and tunnels in or adjacent to the site of the approved development, the construction of the Crossrail structures and tunnels is not impeded.
