Garmi Sexton planning application:

*2017/3847/P

Dear Sir

After trying unsuccessfully to contact your department in
planning re: the above* application by email (or gmail to be exact)
~~and~~ I am writing it urgently to you expressed in letter form.

^ Objection and comment re: Demolition of Morrison's Superstore, Carpark
and plane-trees.

The benefit to the community of the better air-quality, and
stress-releasing aspect of the arboretum in the carpark is being
undervalued here; Camden need to think again.

Relocation of all the trees should be mandatory and prioritised
in the event that the error of granting this application is made.

The coffee-shop is unique compared with other similar outlets, in
having windows facing this refreshing view of the raised arboretum;
this, and the access via the canal-path through Gilby's Yard gives
Morrison's an advantage over its rivals in attracting the
business of customers willing to escape the stench and pollution
of the air-quality in Camden Town.

Yours faithfully,

Camden resident
& Regular customer of the coffee-shop and store.

^ I could not access the www.camden.gov.uk/viewplans address either
I also tried Garmi.Sexton@camden.gov.uk.
