### Electric Meter Box Surface Mark 2 (408mm x 503mm x 237mm)

The Mk2 version has been introduced due to demand for a smaller version of the surface mounted Electric Meter Box.

The cover can be removed in order to facilitate easy fitting and maintenance of the box and the meter installation.

408mm wide x 503mm high x 237mm deep.

Can be used with most Meters including Prepay and Smart Meters.

**Please Note:** Meter Box Keys are **not included** and these are for outdoor use. Due to the nature of the material used in manufacturing, these may have cosmetic imperfections including scuffs and scratches.
