Subject: re: site of Arthur Conan Doyle Temple

I recently read about the proposed demolition of the Arthur Conan Doyle Temple, I would like to request that you petition the people who are proposing the demolition to refrain from such a horrendous act. Our history is being destroyed all over the world, and soon there will be nothing left of our early days for our kids and grandkids to look at, and marvel at. Maybe I am one voice in thousands, but please conserve our history for more years to come.

I am an ex-patriot, who lived in Rochester for some years, and loved Kent. Truly a beautiful part of England. Let's not destroy it.
