Reason:

For the avoidance of doubt and in the interest of proper planning.

#### Informative(s):

- 1 Reasons for granting permission.

The simple design of the replacement metal railings to the front entrance of the property would not detract from the appearance of the host dwelling and would be similar to the railings located to the front of neighbouring properties in the area, ensuring no significant harm would be caused to the character of the surrounding conservation area. Furthermore, the installation of two light fittings and replacement paving to the front entrance of the site represent minor alterations that would not detract from the character and setting of the host and neighbouring properties.

The proposed alterations would not have a significant impact on neighbouring amenity in terms of loss of light, outlook or privacy.

No objections were received following statutory consultation. The sites planning history and relevant appeal decisions were taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving or enhancing the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposal is in general accordance with policies D1, D2 and A1 of the Camden Local Plan 2017. The proposed development also accords with the policies of the London Plan 2016 and National Planning Policy Framework 2012.
