Dear Mr. Thuaire,

Residential development on Hampstead Heath: 2017/1822/P

The Heath is designated a [Site of Metropolitan Importance for Nature Conservation](#) (site reference M072) and is valued for its importance to biodiversity due to a range of habitats, including bogs, wide expanses of grassland and ancient woodland. It is entirely inappropriate that such a site be used for residential development.

Residential development on this site would also cause harm to the Conservation Area and nearby listed buildings.

Redington Frogнал Association strongly objects to this proposed change of use and certificate of lawfulness

Yours faithfully,

*Nancy Mayo*
