**Subject:** 2017/3745/P The Garden House

Dear Mr. Thuairé

With reference to the above application the Vale of Health Society:-

- a) wishes to register its concern that the application for the temporary removal of the arch might lead to a suggestion in future that the arch should be removed permanently and
- b) opposes any application for the permanent removal of the brick pier at the south front entrance which could have the effect of removing parking bays presently in front of The Garden House if a double yellow line was required to allow access to the entrance to the property for the purpose of parking a vehicle.

Yours sincerely

Ellen Solomons  
Chair Vale of Health Society
