2017/4551/P	Serdar ahsak	11 Grenville street Russell Square London Wc1n 1lz	11/09/2017 19:48:20	APP	<p>My name is Serdar Ahsak and I am the owner of this cafe on 11 Grenville street that is being affected by this application. I've been here since 2003 and my life and my family depends on this business. This is my only source of income. I have a very expensive 15 year mortgage left and if I was to lose this business my life would be affected and ruined completely. One of my son's is at university and my youngest son is 10, I have a young family and our life depends on this business my sons future depends on this business. I was first told by the landlord that I would be back in the cafe after the work is done on the building but recently I've been told that the lease is going to be available to everyone which means there's no guarantee that I will have my cafe back. This application will not only affect me as a person my family and my life but it will also affect the neighbours and Great Ormond street hospital. I've dedicated my last 14 years at this cafe and my lease is ending in 2025 and it's not fair on me to be put in this very crucial and horrible situation. I hope that you take into consideration my situation and I hope to hear good news in the near future.</p>
