2017/4327/P	Sally platt	15 Vane Close	03/09/2017 16:44:41	INT	<p>Although my house will not be directly effected by this planned excavation as it is some distance away, but indirectly the noise, disruption and problems of access to the road leading into the Close would be sure to effect me. More important however is that if permission is granted it will set a precedent for future applications. This could lead to big problems for many of the 20 residents who live on the Close. The houses are very closely interlinked with connecting walls of very thin construction. I can hear people coughing and talking in loud voices through the walls so any major construction would become a nightmare.</p> <p>This is totally different from the usual Victorian solidly built houses that get permission to do this type of conversion. Please think again.</p>
