Dear Sir/Madam

This is regarding Frognal Court roof development.

I am owner of Flat 5 Frognal Court,NW3 5HL

I strongly object in respect of planning application as above due to but not limited to following factors:

- 1.It is dangerous as there are rail tunnels underneath the building so its not safe to build another floor
- 2.Fire escape will be used as entrance and its very dangerous as it will pose a high fire risk in the event of fire
- 3.Noise levels and damages will be substantial as it has happened with rest of frognal court
- 4.Development will not benefit anybody

Further I reserve the right to take legal action against Camden Council if this application is granted as it will cause me lots of stress and financial loss.

I am on top floor and will suffer if this application is granted as i dont think planning officers has looked in detail at this application

Kind Regards

Ilir mani
