RE: Objection to proposal 2017/3847/P Morrison's / Camden Goods Yard

It is very disappointing that the planning department has taken so little notice of the proposals made in the Planning Framework for the Camden GoodsYard site, every one of which is worth careful consideration. It many or most of these proposals were adopted, the project could not only provide more housing and jobs but also enhance the neighbourhood for those of us who already live here.

Needless to say, SCALE is one of the main issues. And one would have thought recent events would make developers think carefully about the height of the buildings in which families will be living.

It would also be good to have iron-clad reassurance that the developers are not left with the option of 'paying a fine' in lieu of providing the social housing they have signed up for. Also that tenants moved out of their homes while work is being carried out, are returned to their homes when the work is completed.

Yours faithfully
