2017/4304/P	Mrs J Terrey	10 Edith Neville Cottages Doric Way London NW1 1JY	13/09/2017 14:05:18	OBJ	As the resident at 10 Edith Neville Cottages I would again strongly object to this extension not only because of the noise,dirt & disturbance of the actual work but also due to the fact that it would put my home into almost total darkness, add to this the fact that the people living in there now make enough noise to raise the dead keeping me awake till all hours on the weekend I can't imagine it being better with more noisy people living & overlooking me affecting both my peace, my privacy & my health. Besides which with the crossrail 2 plans to demolish the entire block what would be the point? I would not be able to attend or speak at committee about this due to my age & ill health but I do feel very strongly that my objection considering the current problems already arising from this property should be taken very seriously.
