2017/4756/P	Mary Carchrae	93 Leverton Street	12/09/2017 14:39:17	OBJEMAI L	<p>I object to the development proposed:</p> <ol style="list-style-type: none">1. When this new house was given planning permission [1998] it provided off-street parking; a garage was included. I object that this garage is no longer providing that off-street parking, and the proposal to remove of garage doors indicates that there is no intention to comply with that original permission.2. The original permission also required "The proposed glass block shall consist of obscured glass and shall be permanently retained as such. " to prevent overlooking. A change to obscured glass to 1.7 M is less than adequate, and there is no indication that these windows would be permanantly closed. Overlooking my house and garden would become a problem.3. The underground accommodation proposed is not suitable as living space, making this a substandard house. The original small 2 bed house would become 3/4 beds, which is too cramped for the small site, with the possibility of even further parking demand.
