

20W Pro Strip

Atmospheric Pro Strip 20W is a super high powered lighting product ideal for any domestic and commercial applications where task or very high levels are required. With 120 high power LEDs per metre it offers very smooth linear runs of lighting and stunning light levels.

High quality Pro Strip is supplied with 3M backing double sided tape to adhere to clean, grease free non porous surfaces.

Dimmable with appropriate control products. Please see our range of wall units, 1-10, Dali, DMX and mains options.

Heat sinking is essential to maintain the longevity of the product, please select from our comprehensive range or call our sales team for advice.

- High brightness SMD C1242 LEDs
- Cuttable every 25mm
- High luminance efficiency and low power consumption
- Long life of up to 50,000 hours
- IP40 and IP67 versions

Product Code Generator

ATMOS-120-12-20-x-x

LED Colour

21 = 2100K
24 = 2400K
27 = 2700K
WW = Warm White 3000K
NW = Natural White 4000K
CW = Cool White 6000K

IP Rating

NON = IP40 Rated
IP67 = IP67 Rated
