**Attachments:** Southampton Row LBC application notification.jpg; External (14).jpg

Dear Sirs

I submitted a Listed Building Consent application via the Planning Portal on 24 July reference PP-06202795, copy of notification attached, but have not yet received confirmation of validation and I cannot locate the application on your website. Could you please confirm that the application has been received and validated?

Further it has been determined that "Lloyds Bank" text and a logo on one of the shopfront windows glass, on Vernon Place elevation, is etched and not applied vinyl as first believed. Would it be possible to include the replacement of this glass onto the Listed Building Consent application? I attach a photograph of the windows in question.

Best regards

Trevor Jones  
Architectural Consultant
