2017/4730/P	Derek Lubner	1 Inverforth Close	19/09/2017 17:52:22	OBJ	<p>We object to the proposed amendments on the grounds that the additional height and extension to the dwelling will affect light reaching our house, especially our kitchen. We also feel that the proposed changes are not in keeping with the existing dwelling. It would entail too great a structure in relation the size of the existing plot.</p> <p>We objected previously to the original application, yet had no response. We sincerely hope that our objections will both be noted and responded too, which did not happen previously.</p> <p>Yours sincerely</p>
