Reason:

For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission.

The proposed scheme would involve alterations to the front elevation fenestration and rooflights. The design of the proposed fenestration alterations including timber shutters at ground floor level is considered to enhance the mews-like quality of the building and better align their appearance with the rest of the properties in the nearby vicinity. The scheme is considered to be appropriate in terms of design and materials, meeting guidance set out in CPG1 and enhancing character of the streetscene and wider conservation area. In addition, the alterations to the two rooflights are considered acceptable as they are not visible due to being located on the flat roof behind the parapet.

The proposed alterations would not cause harm to the residential amenities of any neighbouring occupier.

A site notice and press notice were published and no comment was received prior to making this decision. The site's planning history and relevant appeal decisions were taken into account when coming to this decision.

Considerable importance and weight has been attached to the harm and special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies A1, D1 and D2 of the London Borough of Camden Local Plan, and policy D3 of the Kentish Town Neighbourhood Plan 2016.
