- 3 Reasons for granting permission.

The proposal will replace the existing lead covering over existing timber boards on all three buildings with new lead covering over plywood boarding and thermal insulation. The proposal will match the appearance of the existing dormers. As such, the proposal is considered not to alter the character or appearance of the building or detract from the wider Bloomsbury Conservation Area, and would be acceptable.

The proposal is for minor alterations and is not considered to have a detrimental impact on the amenity of neighbouring occupiers as no increase in size of the roof slope is proposed.

The site's planning history has been taken into account when coming to this decision. No objections have been received following statutory consultation.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Bloomsbury Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Area) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies A1, D1 and D2 of the Camden Local Plan 2017, the London Plan 2016, and the National Planning Policy Framework 2012.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
