Subject: Demolition of Rochester Square Church Building

Dear Sirs/Madam,

I would like to take this opportunity to raise my concerns and requests in regards to the proposed demolition of the Rochester Square Church , Camden

This is an important building in a conservation area. The Spiritualists' National Union, has never paid to own this building. It holds the deeds 'in trust' and is guilty of the extreme neglect of a highly prized and unique arts and crafts, purpose built Christian Temple.

Please help to restore This unique and extraordinary building, it must be saved and restored to its former glory. It would be heartbreaking to see it ripped down and demolished. It has historical relevance and should be treated with the respect it deserves.

Many Thanks

Shaunagh Roberts

It would be great for Camden to have a theatre here.

I am a Camden playwright/theatre director and would support this.

Dear planners I am writing to ask that you disregard the current planning application and instead serve the Spiritualist National Union with an order for building safety and improvement.

The proposed building is quite simply ugly, bland and uncharacteristic of the surrounding area. We do not need any more 'homes for non local people' i.e. unaffordable, nor, as an involved local resident have I discerned any popular clamour for a basement gallery. This is simple opportunistic greed riding roughshod over older and well established philanthropic principles. Please resist and serve tax paying residents before brown envelope developers and unscrupulous owners.
