2017/4578/P	Hampstead CAAC	c/o Flat 6 4 Ferncroft Avenue NW3 7PH	20/09/2017 16:17:16	OBJ	This application concerns a historic brick wall forming part of a listed late Georgian cottage. The historic wall is an important character feature and forms part of the historic setting. HCAAC strongly objects to the proposal for a new garden building, as it will obscure this wall, and to its unacceptable design. HCAAC also objects to the wall being infilled and objects because the wall forms part of the setting of this listed building. It is acknowledged that the wall is in poor condition but, rather than infilling, this original and highly unusual wall should be preserved and repaired. It is additionally noted that the garden building is likely to be in excess of Camden's supplementary guidance on maximum dimensions.
