2017/2899/P	Ms Judith Cooke	12B Laurier Raod London NW51SG	27/09/2017 17:07:30	COMMEM AIL	<p>Plans for 4 Boscastle are unacceptable in a conservation area intruding absurdly onto the skyline - visible from Laurier Road, damaging the exterior of a lovely old house and the visual continuity of Boscastle road, The plans for raising the profile and changing the exterior are both overbearing and unneighbourly. This applies from the front AND the back.</p> <p>From the plans it looks as if the neighbours houses (in this small terrace) will be grossly impacted on in terms of structural challenge. An intrusive mansard roof is simply not acceptable in the conservation area and particularly not for this house. Similarly extending backwards is unneighbourly.</p> <p>My main objection is to all the external change proposed. I am concerned that the internal plans eg for the basement are not detailed enough in terms of the likely impact on houses in the whole area</p>
