2017/5273/T	Dr Vicki Harding	Garden Flat 19 Froggnal Lane London NW3 7DB NW3 7DB	01/10/2017 19:35:03	OBJ	<p>This is an inadequate application with no plan of the trees and the garden, and no reasons for felling given. The 'Yes' boxes are ticked for 'Are you seeking consent for works to a tree(s) subject to a TPO?', 'Alleged damage to property' and 'Subsidence', yet no written arguments are given, no plans are on Camden's website and the question 'Are you providing additional information in support of your application?' is answered "No".</p> <p>This application should be refused or withdrawn until concerned local people are able to assess it adequately, and Camden receives the documents that "must ... provide reasons for the work and, where trees are being felled, ... give your proposals for planting replacement trees ". This is not good enough for an application to fell two trees in a Conservation Area, even if it isn't true that one of these trees has a TPO. Vicki Harding, Tree Officer Heath &amp; Hampstead Society</p>
