The Council has considered your application and decided to grant approval of details.

Informative(s):

1

Condition 3b of permission 2015/6015/P requires full details of the proposed railings and banisters across the site.

The Council's conservation officer and Planning Officer have assessed the proposals and in relation to design, details and specification and have assessed the materials on site. The details are considered appropriate as they will not dominate the external look and feel of the buildings, are sympathetic to the general area and in line with the materials which are installed across the wider site.

The site's planning history and relevant appeal decisions were taken into account when coming to this decision. An objection to this application has been received and has been taken into account in the recommendation of this decision. The full impact of the proposed development has already been assessed. The details submitted have been assessed in relation to the approved scheme, the site and its surroundings.

As such, the proposed development is in general accordance with policies CS14 and CS15 of the London Borough of Camden Local Development Framework Core Strategy and policies DP24, DP25 and DP29 of the London Borough of Camden Local Development Framework Development Policies.

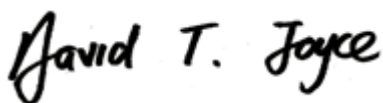

- 2 You are advised that conditions 3 (Part), 5, 7, 13 and 15 of permission 2015/6015/P are outstanding and require details to be submitted and approved to the Local Planning Authority.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
