2017/4731/P	Holly Tatham	46a Fortess Road	04/10/2017 20:53:13	COMMNT	<p>I am writing as the owner of 46a Fortess Road to state my objections to the proposed development. My principal objection is the light pollution that will result from reinstating translucent glazing to the windows that have been blacked out and/or obscured for decades. The Fortess Road houses that have gardens backing onto the proposed development are listed buildings in a conservation area. The proposed development compromises our right as owners / residents to 'quiet enjoyment' of our gardens, introducing additional light pollution that wouldn't otherwise be present. The gardens are an urban haven and provide habitats for diverse wildlife. Furthermore no details are given of the proposed method of access and the potential for noise / dust / disruption during the construction phase. Principally whether access is required via our properties. This must be clearly stipulated before any permissions are granted.</p>
