Arboricultural Legend

- Tree
- Tree to be removed
- Tree to be retained
- Tree to be planted
- Tree removed
- Clearance of Removal
- Risk Protection Area
- Construction Exclusion Zone

General Notes

- Tree canopies have been measured and plotted at their cardinal points for clarity and presentation purposes.
- The location and attributes of off-site trees have been approximated unless otherwise stated.
- The Root Protection Area (RPA) is a layout design tool indicating the minimum area around a tree deemed to contain sufficient roots and rooting volume to maintain the tree's viability and where protection of the roots and soil structure is to be treated as a priority. (Refer to main report for further details)
- Site traffic or obstructions encountered at the time of the survey may have resulted in arboreal features being omitted or their attributes being approximated.
- Tree works are to be undertaken by qualified contractors to BS3998:2010.
- Trees are to be Risk Assessed for nesting birds and bats.
- The arboricultural survey is based on the supplied topographical survey. The location of features shown has not been checked.
