PRODUCT OVERVIEW

Following the successful launch of our Victorian Awning we looked to develop the classic French awning in a similar manner. Focusing on simplicity and strength we redesigned the traditional window covering that has adorned the beautiful facades of Europe for centuries into an elegant shop awning. Maintaining distinctive clean lines across broad elevations and the ability for the soft, unbroken flow of fabric to lead into long hanging valances we achieved, The Greenwich® Awning. Hand built entirely in our workshop the Greenwich® Awning has become our most popular awning.
