

## 73 Maygrove road

View from Bedroom window in ground floor flat looking West across towards Maygrove peace park with mid summer Early morning sun shining onto and reflecting off the wall . Ivy from the park covers the top of the wall and Jasmine , Wysteria , Boston ivy and Ceanothus have been planted on the courtyard side of the wall.

This view will remain exactly the same is the lift is built. Interestingly the VSC does not take the size of the tree into account and whether it is deciduous or evergreen . ( It is in fact an Ash tree) .
