Subject: Objection to planning application 2017/5431/P + 3 others

Dear Camden Council,

I am writing to object to the planning application for a telephone kiosk at 319-323 West End Lane (2017/5431/P).

The proposal will block a busy stretch of pavement to the detriment of pedestrians. It will also hinder the movement of disabled people, those with buggies/prams and those with visual impairments.

The design appears to be poor and the kiosk is likely to become a magnet for anti-social behaviour. Other phone boxes in the area have been vandalised and have been used to display calling cards for sex workers and drug dealers.

The proposal is also in clear breach of the Fortune Green and West Hampstead Neighbourhood Plan - in particularly Policy 3 (Safeguarding and Enhancing Conservation Areas) and Policy 9 (Pavements and Pedestrians).

In addition, I also object to the linked planning applications for a series of telephone kiosks in the area (ref: 2017/5432/P, 2017/5430/P & 2017/5429/P) for similar reasons.

I urge the Council to refuse all four planning applications.

Best wishes,

James Earl

Subject: Letter of Objection re. Planning Application 2017/4737/P

Dear Sir/Madam,

Re. Planning Application **2017/4737/P**

I am writing to object to this planning application. I am a resident at Cresta House (133 Finchley Road), and am aware of how disruptive Deliveroo hubs can be for local communities. I do not want to be affected by the noise of vehicles (scooters in particular). The noise report by Noise Solutions appears only to examine the noise of the plant - has there been an examination of the potential noise impact of scooters making hundreds of trips back and forth day and night?

Yours sincerely,
Emily Cheng
