2017/5122/P	Anna Turner	3 Hornby Close	09/10/2017 14:38:51	SUPPRT	I fully support this application. It is very difficult for families to stay in the area if they need more space as property prices are so high.
2017/5122/P	Robert Swerling	89 Fellows Road NW3 3JS	09/10/2017 12:19:49	COMMNT	The design appears elegant and restrained, and will make a positive contribution to the surrounding area.
2017/5122/P	Richard Taylor	99 Fellows Road London NW3 3JS	09/10/2017 13:35:37	SUPPRT	There is a need for additional space in family homes in the area and I support this application.
2017/5122/P	Jonathan Marks	Meadowbank NW33AY NW33AY NW33AY	09/10/2017 10:14:00	NOBJ	We have lived in Primrose Hill since the early 1990s and now reside in Meadowbank with a family of four children ages 2-15. we fully support any enhancement of the area and upgrade of the areas properties. All the houses on the north side of King Henrys Road have over time become tired and in need of upgrading so we welcome the proposals for number 106 not as least as it appears to be in line with many others along the road currently underway. we also believe strongly that growing families and long term residents are key to a community and if this enables the owners to stay and avoid moving their family away, it can only be positive.
2017/5122/P	Jonathan Marks	Meadowbank NW33AY NW33AY NW33AY	09/10/2017 10:13:54	NOBJ	We have lived in Primrose Hill since the early 1990s and now reside in Meadowbank with a family of four children ages 2-15. we fully support any enhancement of the area and upgrade of the areas properties. All the houses on the north side of King Henrys Road have over time become tired and in need of upgrading so we welcome the proposals for number 106 not as least as it appears to be in line with many others along the road currently underway. we also believe strongly that growing families and long term residents are key to a community and if this enables the owners to stay and avoid moving their family away, it can only be positive.
2017/5122/P	Andrew Maurice	30 Ornan Road	09/10/2017 13:51:43	COMMNT	I fully support this development - it makes good sense to improve this house.
2017/5122/P	J Colman	32 Eton Avenue NW3 3HL	09/10/2017 09:04:28	SUPPRT	Living nearby, I support this application. It is the best way to improve living space in an area where external alteration is restricted. A major benefit from this is the reduction in noise (in and out) as a basement is essentially a sound-proofed area.
2017/5122/P	Jon kandel	43 Ornan road	08/10/2017 22:43:32	COMMNT	I fully support this approach to planning. What a great addition to the need for more quality family space in the area. We need to retain family space in NW3
