2017/5430/P	B.M. Shaughnessy	20 Kylemore Road London NW6 2PT	10/10/2017 07:30:30	OBJEMAI L	<p>Dear Ms Fieldsend, Re: Application Nos. a) 2017/5429/P - 2017/5430/P b) 2017/5431/P -2017/5432/P</p> <p>It is clear from these 4 applications submitted by Europayphone Ltd that they are intending to gain permission to populate the two most crowded sections of West End Lane with phone kiosks which are unwelcome and obstructive in terms of a) a very congested transport interchange and b) a row of busy local shops. Some years ago this neighbourhood was promised a Master Plan by Camden Council which was not achieved and we are left increasingly vulnerable to applications like this (along with others for inappropriate signage and commercial activity) in the centre of West Hampstead. As West Hampstead has a PTALrating of 6 and was made an intensification area by the Mayor of London, thousands of people pass and will be passing along the pavements of the central area and these kiosks will multiply the pedestrian problems we are already having as they are sited on the walkway with no effort made to set them to one side out of the way of foot traffic.</p> <p>The open design of the kiosks is also shortsighted as the traffic/noise levels on this major northsouth route are significant and little thought seems to have gone into adapting the design to the environment.</p> <p>Another point which is not stricly a planning consideration is that a previous phone box on the corner of Sherriff Road and West End Lane was often damaged, hardly used (except for business card advertising), vandalised and finally removed. There seems no justification in the age of mobile phones to return to this out-of-date and redundant technology and it is remarkable that the applicant has totally failed to consult either with Camden Council planning, or any community representative/group.</p> <p>For the reasons given, we request that you refuse applications the four kiosk applications 2017/5429-30-31&32P.</p>
