2017/5122/P	Mr A Green	58b King Henry's Road	10/10/2017 09:46:00	COMNOT	<p>I live locally on King Henry's Road and having looked through the plans and submitted documents wish to register my support for the application. Although not mentioned in the application this proposal seems to me to be a direct application of the lifetime homes principle. Local people on normal incomes cannot afford to move house and therefore it is vital that we can be allowed to adapt our existing homes to the changing requirements of different generations. The house is not listed, not in a conservation area and in need of refurbishment (as is the rest of this part of the street front).</p> <p>I am sure that any objections to this application is purely on the basis of nimby thinking and a purely selfish wish to avoid any kind of construction nearby - clearly not a fair or valid basis for an objection.</p> <p>I hope that you approve this application</p>
2017/5122/P	Ronit Kreisberger	87 Fellows Road London NW3 3JS	11/10/2017 18:17:17	SUPPRT	<p>I am strongly supportive of this application. I believe one of the principal objectives in the review of these applications should be to encourage and enable young families to stay in the area. Ultimately this will have a critical impact on the make up of the local population. The proposal achieves the practical aim of creating space for a family with young children. The area suffers from having little affordable housing with sufficient space to accommodate families with 2 or more children. Creating larger family homes will therefore have a highly beneficial impact and should be encouraged.</p>
