5th October 2017

Dear John Diver,

Re: 6 Stukeley Street London WC2B 5LQ
Ref: 2017/4135/P

I object to this Planning Application on the following grounds:

This planning application was submitted after the Planning Appeal Decision on 5th September, so the applicant is aware of the Inspector's decision to turn down the appeal. The application should be judged in the light of the Inspector's decision letter and current adopted planning policies.

The proposal will alter the quality and appearance of the Conversation Area and will reduce the open outlook that this single storey building gives to Stukeley Street indeed, the Planning Inspector makes it clear in his decision letter that this building and its modest height, in this narrow street gives a positive contribution that this quality should be preserved.

The bulk and height of this proposal will substantially obscure the current views and outlook across the existing building both from the street as well as from the residential building known as Goldsmith Court, as a consequence, the size and height will damage the amenity and quality of the residential accommodation within as well as obscuring my rear view.

The Council should reject this application in the light of the Inspector's Decision Notice which clearly states that any development of the site should maintain the existing outlook and views across the site from street level as well as from adjacent residential accommodation in Goldsmith Court.

Yours sincerely,

[REDACTED]

G R Weir
