2017/5384/T	Dorette Engi	21 Rudall Crescent	17/10/2017 12:01:59	OBJ	<p>I hope that the permission to fell this mature and beautiful bay tree will not be granted. I have lived in the crescent for 30 years and in that time the tree has hardly grown in that time, therefore it will not be a risk to the wall. Quite to the contrary it is a beautiful addition to that corner of buildings.</p> <p>Replacing it with a young tree would not substitute its value.</p> <p>The felling of the tree might actually be of more damage to the wall as it will create a vacuum.</p>
