2017/5425/P	Willis John Cummins	Individual Restaurants Ltd Ridgefield House 14 John Dalton Street Manchester M2 6JP	16/10/2017 10:12:43	OBJ	The application for telecommunications equipment, is by a company that is now principally an advertising company. The supporting documentation shows no effort to consult with neighbours and no evidence to support the need for the telecommunications equipment, as required by the regulations, in that location. The proposed kiosk is large and with its advertising will add clutter to the pavement, detract from the street scene and, potentially, the Listed Building opposite. It is noted that the Metropolitan Police also object to the installation of the kiosk on the basis of its potential for anti social behaviour. As such, I request that the prior notification application be rejected as no need has been demonstrated, no consultation has taken place with adjacent owners and its serious impact on visual amenity and its potential for harbouring antisocial behaviour.
